

K-Love radio station has been a great service to me as a resident of the local community for over 6 years in giving me a choice of music different from any other radio station there in no other station like K-love in my area.

2. Our local community would be effected greatly if K-Love were replaced by a LPFM station because of the unique messages and information K-Love provide to our community, I don't believe we would receive the same type of information or commitment that K-Love gives to the community with their message to reach out in our community and love the people who are down and out and do not have the resources that you possibly have at your disposal. To give a helping hand in all areas of our community.

3. I believe that the service provided by K-Love is in the public interest. Because they help bring a love to be apart of something good and right and that has a positive effect throughout the whole community. I do not think that this will be the agenda of a LPFM station that would replace the airwaves that K-love now sends their messages on.

Thanks for the opportunity to express my compassion and concern for this issue this is the only radio station I have on in my vehicle and I believe it has help divert a lot of road rage.

Sincerely,

Colleen Seamons
